**Re: Software Engineer**

Dear Hiring Manager,

I am writing to express my interest in the Software Engineer position at Moyang Software. I am excited by the opportunity to contribute to a team building thoughtful, reliable software that solves real user problems.

My background includes developing web applications, shipping backend systems, and working across product and engineering teams. I enjoy building clean, scalable solutions and collaborating with others to turn technical ideas into production-ready work.

In my recent work, I have designed and maintained services that improved performance, simplified developer workflows, and supported customer-facing features. I am especially motivated by roles where engineering craftsmanship, clear communication, and user impact all matter.

I would welcome the opportunity to bring my experience in software development, problem solving, and team collaboration to Moyang Software. Thank you for considering my application. I look forward to the possibility of speaking with you about how I can contribute to your team.

Thank you for your time and consideration.

Sincerely,
Bake Jones
